

# JSTL Core Tag - `<if>`

# Conditional Tests

The `<c:if>` tag evaluates an expression and  
displays its body content  
only if the expression evaluates to true

# Code Example

- Display **Special Discount** if student is a gold customer

```
<c:if test="{tempStudent.goldCustomer}">  
    Special Discount  
</c:if>
```

# JSTL Core Tag - `<if>`
